Objective

Enthusiastic full-stack web developer skilled in the MERN stack. Passionate about building scalable web applications and eager to apply my knowledge to real-world projects. Always keen to learn and grow in a collaborative environment.

Summary

MERN stack developer with hands-on experience in developing modern web applications. Strong understanding of front-end and back-end development, RESTful APIs, and secure authentication. Proficient in JavaScript, React.js, Node.js, Express.js, and MongoDB. Adept at debugging, optimizing code performance, and deploying scalable applications. Passionate about continuous learning, collaboration, and problem-solving in tech-driven environments.

Education

Bachelor of Engineering in Electronics and Communication
Deccan College of Engineering & Technology | 2021 - 2025

Training

Full-Stack Development (MERN) - Code for India (2024 - 2025)

Skills

JavaScript	React.js	Node.js	Express.js
MongoDB	REST APIs	JWT Auth	Git & GitHub
Cloud Deployment	Linux	Tailwind CSS	Nginx

Projects

WebXpertz - Freelancer Platform
- Built a MERN-based freelancer marketplace connecting clients with skilled developers.
- Implemented JWT authentication, role-based access control, and secure REST APIs.
- Developed an intuitive UI using React.js and optimized database interactions with MongoDB.
- Deployed on cloud platforms ensuring scalability and high availability.

GitHub Backend - REST API
- Developed a backend system for managing GitHub repositories via REST APIs.
- Used Node.js, Express.js, and MongoDB with authentication and authorization mechanisms.
- Designed optimized API endpoints for repository creation, updates, and user management.
- Implemented error handling, logging, and security best practices for reliability.

Certifications

JavaScript Specialist (Udemy, 2024)
Full-Stack Web Development (Code for India, 2025)
